Subject:-About permission for organization of two day's workshop on **"Concrete Mix Design"**

Respected Sir,

The Department of Civil Engineering is planning to organize self-financed two day's workshop form 25th October 2023 to 26th October 2023 on "Concrete Mix Design" The details of the workshop are attached with this latter.

We request you to grand the permission to conduct the workshop in our institute.

Thanking you.

"CONCRETE MIX DESIGN"

Workshop Name: Two Days workshop on **"Concrete Mix Design"**

Dates of Workshop: 25th October 2023 to 26th October 2023

Attendees:

1. Students
2. Faculty

Summary:

The workshop address of concrete mix design leading to an understanding of requirement of concrete design codes and its impact on design practice. Workshop focuses on IS code of detailing i.e. IS 456:2000 & IS 10262.

It aims to understand procedure of Concrete Mix Design as per specification of IS code.

Objectives:

- To Understand Principals of Cementitious supplementary substance added in the cement.
- To Understand the effect of ingredients used in concrete (F.A. and C.A ratio).
- To study the role of admixture used in concrete.
- To give hands on training to participants of Mix Design.

Contents of Workshop:

1. Mix Design as per IS code.
2. Actual performance of Concrete Mix as per design.

Resource Persons:

ABOUT THE SANJEEVAN

Sanjeevan Engineering and Technology Institute (SETI) is an establishment of Sanjeevan, meets the needs of technology driven modern 21st Century. The Institute is approved by All India Council for Technical Education, New Delhi, recognized by Directorate of Technical Education, Govt. of Maharashtra and affiliated to Shivaji University, Kolhapur. Sanjeevan Engineering & Technology Institute (SETI) is long cherished dream of Founder- Chairman Mr. P. R. BHOSALE, an Educationalist having experience about two decades. His aim is to impart quality education to the students from nook and corner of the country. No doubt, Sanjeevan Engineers will be the best professionals with added values of Indian Heritage. The college is offering undergraduate degree courses in Computer, Civil, Mechanical, Electrical. All above courses are approved by

AICTE New Delhi & affiliated to DBATU

SCOPE AND OUTCOME OF WORKSHOP

Concrete mix design is the science of choosing the types of ingredients, and the proportions to use them in, to create concrete that meets the technical specifications for a given construction project. The concrete mix design consists of selection of optimum proportion of cement, FA, CA and water to produce a concrete of specified properties. The most specified properties of concrete are compressive strength, workability, durability. As we know that strength is governed by w/c ratio of concrete. A good concrete mix design creates the foundation of a sound infrastructure. Concrete mix design involves a process of preparation in which a mix of ingredients creates the required strength and durability for the concrete structure.

OBJECTIVES OF WORKSHOP

- To Understand Principals of Cementious supplementary substance added in the cement.
- To Understand the effect of ingredients used in concrete (F.A. and C.A ratio).
- To study the role of admixture used in concrete.
- To give hands on training to participants of Mix Design.

A Report on

" Two Days Workshop on Concrete Mix-Design"

Title of Event: **Workshop on concrete Mix-Design**

Date of Event: **25/10/2023 To 26/10/2023**

Time : **10 am To 4 pm**

Venue: SETI Panhala.

Civil Engineering Department has organized two days workshop on **"Concrete Mix-Design"** at Sanjeevan Engineering and Technology Institute Panhala on 25/10/2023 to 26/10/2023. This event was conducted for the students as well as for the faculties of civil engineering department to clear the concepts regarding concrete mix-design.

The workshop was excellently guided by Prof. J. S. Mevekari sir as a resource person from Department of Civil Engineering, SETI Panhala. He covered all the points which the main agenda of this workshop like Introduction to Properties & Principals of Cementitious supplementary substance added in the cement, Effect of ingredients used in concrete, Importance of admixture used in concrete, calculation of mix-design, & at last hands on training to the students within two days.

This workshop was co-ordinated by Ass. Prof. A. R. Tonne. 21 students attended this workshop & the students gives positive response to it.

To,

The Principal,

S.E.T.I., Panhala.

Subject: - Regarding permission to arrange 3-Days Workshop on "AutoCAD Software" in association with CAD MANTRAA Training Institute for Mechanical Engineering Students.

Respected Sir,

Our Mechanical Engineering Department would like to arrange 3-Days Workshop on "AutoCAD Software" in association with CAD MANTRAA Training Institute for Mechanical Engineering Students (All Classes), from 22nd November 2023 to 24th November 2023 (From 09:30 am to 1:30 pm). All students of Mechanical Engineering will get the advantage of this program.

So kindly allow our Mechanical Engineering Department to organize this workshop on above mentioned topic for the benefit of our students.

"SAP Modules in Materials Management and Production Planning"

In Association With Prudentia Technology Solutions India Pvt. Ltd. Pune

Activity Report

1. **Title of Workshop :** SAP Modules in Materials Management and Production Planning.
2. **Date of Workshop:** 6th October 2023
3. **Organized By :** Mechanical Engineering Department S.E.T.I. Panhala
4. **Collaborating Agency :** Prudentia Technology Solutions India Pvt. Ltd. Pune
5. **Resource Person/Trainer :** Mr. Soumitra Pawar (SAP-Trainer)
6. **Objectives of the Workshop:**

In this workshop, the efforts are taken to provide in depth knowledge to the students about various SAP modules such as Materials Management Module and Production Planning Modules. After completing this workshop students came to know about following points:

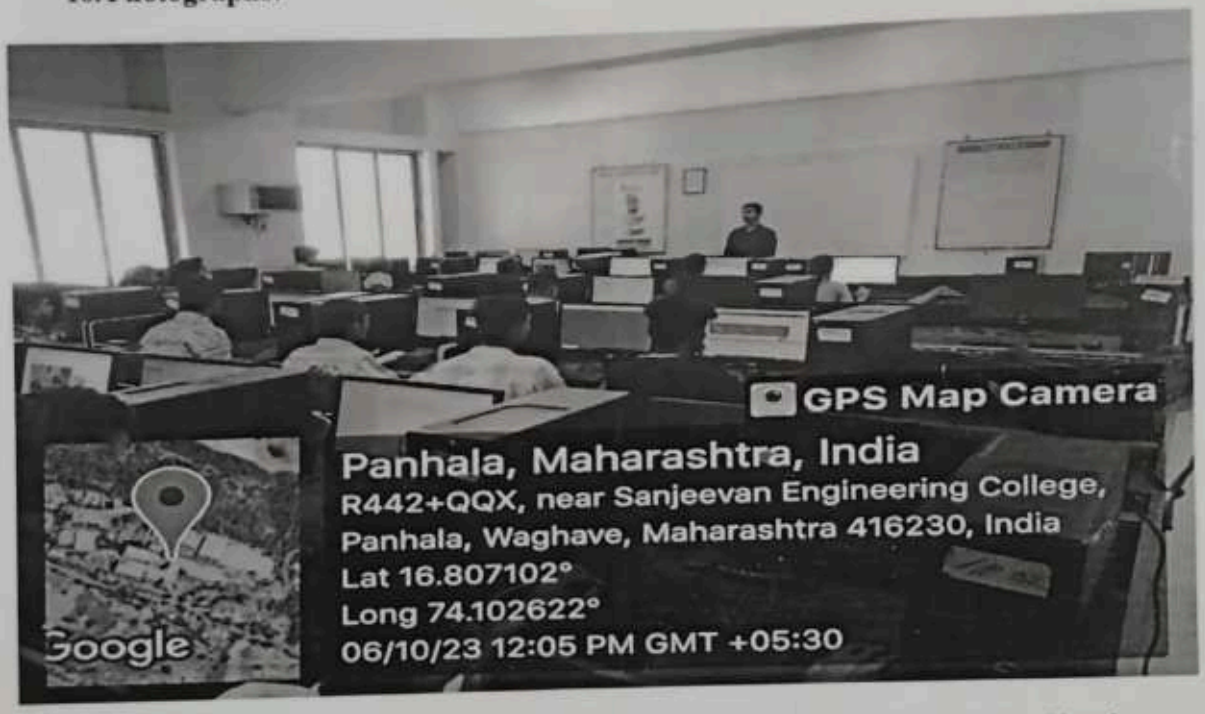

a. Concept of SAP and its importance
b. Different Modules of SAP
c. Various steps and processes associated with these SAP modules
d. Benefits of Materials Management Module, Production Planning Modules to industries
e. Importance of SAP Training
f. Career opportunities as SAP Engineer with these modules.

The Department of Mechanical Engineering organized a seminar on Patent Filing. The expert for this seminar was Prof. A. N. Naik. The essential criteria to get a patent granted involve Novelty, Non-obviousness and Industrial applicability. The importance of the above three criteria in applying and getting a patent granted were explained to the participants. The importance of prior art search before applying for patent is explained. The various search techniques were explained in detail to obtain the prior art documents including patents, journals etc.

The following topics were covered in the drafting of patent application. Title, Field of Invention, Object of Invention, Patent Citation and Prior Art, Brief Description of drawings, Detailed Description, Summary, Claims and Abstract of the Invention.

The department of Mechanical Engineering organized a Seminar on IPR & IP Management for Start-ups, for the students of the Mechanical department, on 6th March, 2024. The event was held at smart classroom No 208. The Expert Speaker was Prof. V. D. Throat. The main objective of this seminar was to motivate students to understand the importance of IPR, and educate them about Intellectual Property Rights (IPR), i.e. Patents, Designs, Trademarks and Geographical Indications, and Copyrights. The Seminar was organized to make students understand the process of filing patents and motivate them to file maximum number of patents, as this will provide weightage to their innovative projects.

Resource Person	:	Mr. Jadhav N.S.
Co-ordinator	:	Mr. Naik Y.R.
Targeted Audience	:	Electrical Department Students (B.Tech)

Programme details:

Electrical Engineering department organized a session on **"Legal Aspects of Copyrights & Trademarks"** on 10th March 2024, at Sanjeevan Engineering & Technology Institute, Panhala.

The chief guest and Resource person for the course was Mr. Jadhav N.S., faculty of electrical dept., Sanjeevan Engineering & Technology Institute, Panhala.

For this session , 34 students from Electrical engineering Departments were present from electrical Department.

Students of departments learned and enjoyed guest lecture enthusiastically. This session lecture will be useful for students inventions related to projects. The session content includes legal things & laws associated with Copyrights & Trademsrks . The guest lecture was co-ordinated by Mr. Naik Y.R. along with all Departmental staff members.

The vote of thanks expressed by Mr. Naik Y.R.

The seminar "Research Article Writing" was organized by CSE Department on 30th April 2024 for Second Year students. The seminar was organized for providing the essentials of writing synopsis/ project report as a part of academic writing. The objectives of the seminar were as follows: 1. Knowledge of research article writing 2. Contents of Research Article.

Resource person provided knowledge of importance of literature review, objectives of research, tools used in research, Interpretation of results and documenting research findings in report. Students were made aware of various formatting guidelines of the journal or publication as per academic standards. Various repositories useful for finding technical information were introduced. Resource person solved students queries in question answer session.

The seminar was organized under the guidance of Prof. R.S.Nejkar, HOD CSE Department and Dr. S.N.Jain, Principal of SETI, Panhala. Total 60 students were benefited by this seminar.

Thanks to Prof. D.V.Patil for conducting the seminar and all faculty members who contributed in organizing this seminar.

Define Research

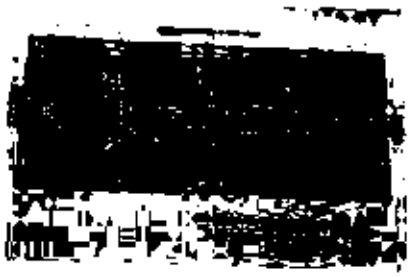

Research can be defined as,

- The search for knowledge
- Scientific and systematic search for pertinent information on a specific topic
- Research is an art of scientific investigation, to establish novel facts, solve new or existing problems, prove new ideas, or develop new theories

7 steps of research process

- Step One: Define research problem
- Step Two : Review of literature
- Step Three: Formulate hypotheses
- Step Four: Preparing the research design
- Step Five: Data collection
- Step Six: Data analysis
- Step Seven: Interpretation and report writing

Research process in flow chart

Step One: Define research problem

Essentially two steps are involved in define research problems

1. Understanding the problem thoroughly
2. Rephrasing the same into meaningful terms from an analytical point of view

Step One: Define research problem

Corrosion of working machine body

Chemistry involved in rusting of iron

Step Two : Review of literature

- For this purpose Manuals, Company Records, Journals, published data can be used.
- Literature review is integral part of entire research process and makes valuable contribution to every operational step
- Review literature can be time consuming and frustrating but is also rewarding . Its function are:
  1. Bring clarity and focus to research problem
  2. Improve methodology
  3. Broaden knowledge
  4. Contextualize findings.

Step Three: Formulate hypotheses

- Formulate hypothesis is tentative assumption made in order to draw out test its logical or empirical consequences
- Hypothesis should be very specific and limited to the piece of research in hand because it has to be tested
- The role of the hypothesis is to guide the researcher by delimiting the area of research and to keep him on the right track.

The seminar on Intellectual Property and Patent filing was organized by CSE Department on 20th May 2024 for Third Year students. The seminar was organized to facilitate academic requirements of students of CSE Department related to Intellectual Property and Patent filing as it plays a crucial role in academia, impacting research innovation and the broader academic community.

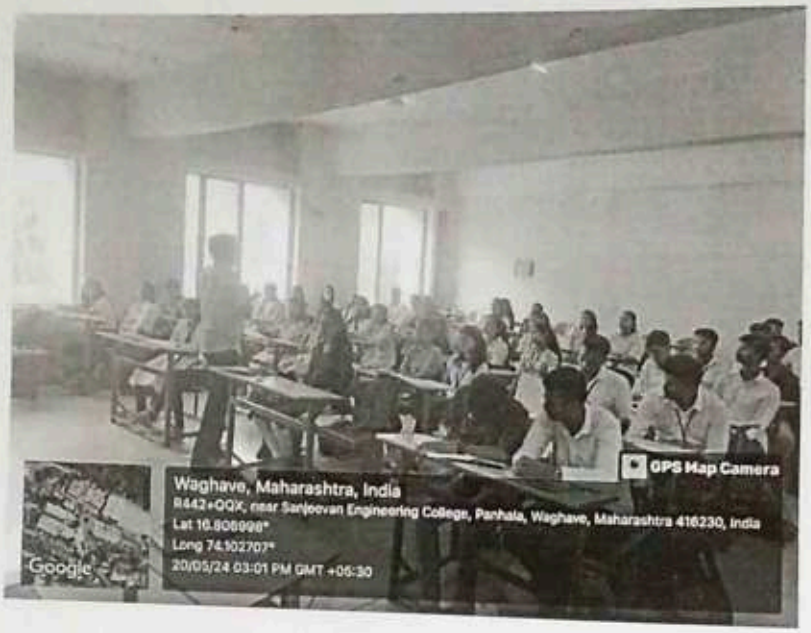

IP can be a critical asset when seeking research funding or entering into collaborations. Resource person provided information about grant proposals and partnership agreements and creating revenue streams that can support further research and academic programs for commercialization through start-ups. Types of Patents and filing a patent for protecting an invention or idea were discussed.

The seminar was organized under the guidance of Prof. R.S.Nejkar, HOD CSE Department and Dr. S.N.Jain, Principal of SETI, Panhala. Total 74 students were benefited by this seminar.
